

Getting Started with Zoom Guide for Students

Click each step heading below to expand the instructions for that step. Click the step heading again to collapse that section.

Step 1: Install Zoom

Download the app at <https://zoom.us/support/download>. After installing the app, you will see a sign-in window.

Step 2: Sign-In With Single-Sign-On (SSO)

1. Click **Sign In**

The Zoom logo is displayed in its characteristic blue, lowercase font.

Version: 4.6.10 (20041.0408)

BYU-Idaho Online Knowledgebase

2. Click **Keep me signed in**.

3. Click **Sign in with SSO**.

The image shows a 'Sign In' page for BYU-Idaho. On the left, there is a 'Sign In' section with a 'Sign Up Free' link. It contains an 'Email' field, a 'Password' field with a 'Forgot?' link, a 'Keep me signed in' checkbox, and a 'Sign In' button. On the right, there is a section for 'Sign In with SSO', 'Sign In with Google', and 'Sign In with Facebook'. The 'Sign In with SSO' button is highlighted with a red box and an arrow labeled '2'. The 'Keep me signed in' checkbox is checked and has an arrow labeled '1' pointing to it. The 'Sign In with Google' and 'Sign In with Facebook' buttons are crossed out with red lines.

4. Enter the BYU-Idaho Zoom Domain: **byui.zoom.us**
(Mac users skip to step 4a below.)

LOGIN

Log into Zoom Prior to Joining a Meeting

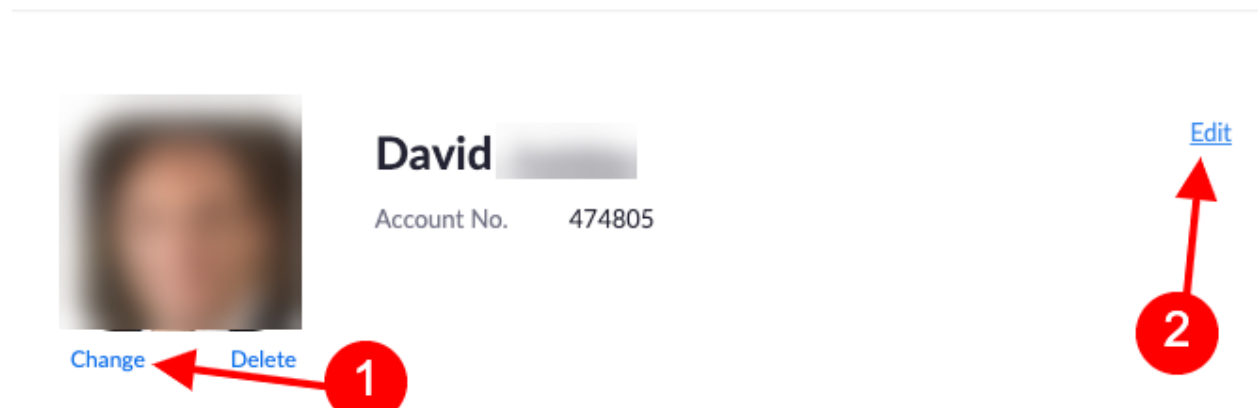

It is possible to join some Zoom meetings without being signed. However, logging in prior to a meeting will allow others in the room to see your name and profile picture. Joining a room without logging in appears impersonal and may result in the loss of attendance credit. To login prior to a meeting, launch the Zoom program on your computer and follow steps 1-4 above.

Step 3: Setup Your Zoom Profile

Go to <https://byui.zoom.us/profile>

1. Upload a profile picture that shows your face only. (Pictures of spouses, pets, etc, are not appropriate.)
2. Edit your first name to show your preferred name that you'd like teachers and peers to use when addressing you.

Step 4: Learn the Basics of the Zoom Desktop App

Audio Setup & Quality Practices

Audio is a very important element when participating in a remote course or meeting. Today's devices have microphones and speakers with varying qualities that can limit or enhance your experience. Be sure to test your audio and acquire any needed accessories to make sure your experience is the best it can be.

1. BYU-Idaho recommends that students and teachers use wired headphones or earbuds with a microphone built-in. (Test your audio to find the best sound for you and your devices.)
2. Mute your microphone to eliminate background noise and distractions

Video Setup & Quality Practices

In a Zoom meeting or classroom, your physical environment is part of the Zoom room. Be sure to test your webcam and make any needed adjustments to help others in attendance see your face and feel your spirit. Follow the suggestions below:

1. Turn on your camera. Remote meetings are more personal and engaging when everyone shares their video.
2. Make sure you have light on your face. Avoid backlights or anything else that casts a shadow on your face.
3. Place the camera at eye-level. No one wants to feel like they are looking up at you or down on you.
4. Consider your background. Is it professional, interesting, or is it distracting? Do your best to have your background represent a place that can be considered an extension of BYU-Idaho.
